

## INTERNET BANKING

One of the best ways to give is through regular or one-off contributions through a convenient and secure electronic funds transfer (EFT) system, using your bank's internet banking facility.

This allows you to have an ongoing commitment to the St James community in a way that's secure and convenient. It also allows St James to effectively plan for its future needs and the needs of the Anglican Community and its wider mission in the world.

This is the ideal and cost effective way for you to set the amount and frequency of your giving to St James. It is available 24 hours a day; 7 days a week, free of mailing and administration costs.

TO SET UP REGULAR TRANSFERS, SIMPLY DO THE FOLLOWING:
